

Rape and Sexual Assault in Massachusetts, 2005-2006

Services Provided by Rape Crisis Programs

Sexual assault is a serious social and public health problem in Massachusetts. Between July 1, 2005 and June 30, 2006, 2,582 unduplicated incidents of sexual assault were reported to Massachusetts Department of Public Health (MDPH)-funded Rape Crisis Centers (RCCs) and Llámanos, the statewide Spanish language helpline. Of these, 1,163 were reported by survivors themselves and an additional 688 were reported by family members, friends and professionals. In Massachusetts, an estimated 17% of women and 6% of men experience sexual assault[‡] in their lifetime¹.

To respond to the needs of survivors of sexual violence, three types of services were provided through the MDPH Sexual Assault Prevention and Survivor Services (SAPSS) program: 24-hour hotlines, education and outreach, and counseling and client advocacy. To carry out these activities, MDPH contracted with 17 locally-based RCCs across Massachusetts (some with multiple sites), Llámanos, and Jane Doe Inc., the state sexual assault prevention coalition. The information below summarizes services delivered over a one-year time period, July 1, 2005 – June 30, 2006.

24-Hour Hotline Services

Hotline services were provided by each local rape crisis center (RCC) as well as Llámanos. Callers to the hotlines include sexual assault survivors, their significant others (such as friends, family members and partners), and professionals (such as physicians, teachers, or therapists). Hotline services were provided on an as-needed basis to these individuals for support and resource referrals. Because callers may use the hotlines repeatedly and anonymously, the number of calls to the hotlines is a measure of service use, not sexual assault incidents reported to DPH-funded RCCs or the number of individuals using the hotlines.

24-hour Hotline Services	Survivor calls	Significant Other calls	Professional calls	Total calls
RCCs	7,140	2,558	2,341	11,988
Llámanos	51	27	54	183
Total Calls	7,191	2,585	2,395	12,171

Educational Activities

Educational activities were offered through each RCC, Llámanos, and Jane Doe Inc. Education was provided for two main audiences: (1) non-professional populations such as students, civic organizations, or faith-based groups; and (2) professional audiences such as health care providers, police, or teachers. As a statewide coalition, Jane Doe Inc. provided many types of educational services; the Jane Doe Inc. numbers presented below reflect only Jane Doe Inc.'s major conferences and statewide training sessions funded by MDPH.

[‡] Lifetime sexual assault is defined as ever having experienced rape, attempted rape, or physical sexual assault. This is not the definition used in previous year and data may therefore not be comparable.

Counseling and Client Advocacy Services

Individual counseling and client advocacy services were provided by local RCCs. Services included short-term individual counseling, medical client advocacy (including support during forensic evidence collection exams), legal client advocacy, police client advocacy, assistance accessing social services, and advocating on a client's behalf when the client is not actually present. Group counseling sessions were also provided by the RCCs and provided opportunities for individuals to support one another through the healing process.
